Greta Besch Moen, Ph.D, Chair Members of the Board of Trustees and Billings Community Billings Public Schools 415 North 30<sup>th</sup> Street Billings, Montana 59101

Dear Board Members and Billings Community:

We are pleased to present to you the Comprehensive Annual Financial Report (CAFR) for Billings Public Schools for the fiscal year ended June 30, 2018. The purpose of this report is to provide the Board of Trustees, district management, voters, grantor agencies, and other interested parties with reliable financial information about Billings Public Schools. This report presents complete information about the district's financial position at year-end and financial activities during fiscal year 2018.

Responsibility for the accuracy of the presentation, including all disclosures, rests with the school district's Business Services Department who prepared this report. We believe the information, as presented, is accurate in all material aspects, and is shown in a manner to present fairly the financial position and results of operations of the various funds of the district. All disclosures necessary to enable the reader to gain an adequate understanding of the district's financial activities have been included.

Generally Accepted Accounting Principles (GAAP) requires a Management Discussion and Analysis (MD&A) that includes a narrative introduction, overview, and analysis to accompany the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the auditor's report in the financial section.

Billings Public Schools engaged Eide Bailly LLP, an independent auditor, to conduct the district's audit for the fiscal year ended June 30, 2018. The auditor's report is presented as the first component of the financial section of this report.

#### PROFILE OF THE DISTRICT

Geographically, Billings Public Schools covers an area greater than the city of Billings. The school system includes two legally separate districts, Elementary District No. 2 and High School District No. 2. The Elementary District covers approximately 33 square miles and has an estimated population of 111,902. The High School District covers approximately 703 square miles, and encompasses eight elementary districts including; Billings, Elder Grove, Elysian, Canyon Creek, Morin, Yellowstone Academy, Independent, and Blue Creek. The estimated population of the High School District is 126,154. In May 2018, voters from Lockwood passed a bond to build a new high school and separate from the Billings School District. The establishment of Lockwood as a K-12 district was effective immediately. The new school is expected to be completed prior to the 2021 school year, initially enrolling only freshman students to avoid pulling older students out of schools they already attend in Billings. The staggered enrollment approach means approximately 400 Lockwood students will vacate Billings schools by FY24. Demographic studies show the student population elsewhere in the district will increase enough to offset the Lockwood impact. The FY18 student population totaled 16,658 while projections for FY20 total 16,934. Projections for FY24, when Lockwood students will have fully vacated the district, total 16,744.

The school system is a public entity under the authority of the state of Montana. The Elementary District No. 2 and High School District No. 2 are separate legal entities that make up one independent reporting entity within the criteria established in section 2100 of the <u>Codification of Governmental Accounting and Financial Reporting Standards.</u>

The Elementary District is governed by a board of seven trustees elected by the voters of single member districts of the Billings Elementary District. The High School District is governed by a board of nine trustees that include the seven Elementary District trustees and two additional trustees elected by voters in the other elementary districts. The superintendent, who acts as chief administrative officer, is selected by the board of trustees. Terry Nelsen Bouck was hired on July 1, 2012 and served as the superintendent during the period examined in this report. Mr. Bouck announced his retirement in September 2017, effective at the end of the school year. The search for a new superintendent concluded in May 2018 with the hiring of Greg Upham. The leadership at the board level remained the same with the annual reorganization meeting in May.

All funds of the district are included in this report. The district serves over 16,000 students and provides a full range of educational services appropriate to grade levels from pre-kindergarten through 12<sup>th</sup> grade, as well as adult education. These include regular and enriched academic education, special education, and occupational education. These basic programs are supplemented by a wide variety of offerings in fine arts, athletics, and other specific student-based clubs.

The district has aging buildings with the oldest building constructed in 1910 and most recent built in 2017. There have been additions made to the buildings over the years and bond proceeds are being used currently to update various facilities. The Board of Trustees conducted a successful bond levy election in November of 2013 in the amount of \$122.3 million with a voter approval rate of 54%. In January 2014 the District sold the first installment of the \$122.3 million bond issuance. The \$80.9 million sold in January has been used to fund deferred maintenance, Broadwater and McKinley renovations, technology infrastructure and a new middle school in the heights (Medicine Crow Middle School). The second installation of the 2013 bonds were sold in September 2015 to finish the deferred maintenance projects and complete the second new middle school on the west end (Ben Steele Middle School). The district is on the final stretch of utilizing a \$122 million bond project. The final piece was completed in July 2017 with the opening of our second new

middle school. With that opening, the district was able to complete the transition to a grade 6-8 model. By moving 6<sup>th</sup> graders to the middle school, it has given the district additional capacity in the elementary buildings to alleviate over-crowding issues. A 2<sup>nd</sup> Facility Master plan was completed in April 2018 and identifies planning goals to prioritize future facility improvements. With many of the previous elementary school issues having been addressed in recent years, the focus now shifts to deferred maintenance and addressing educational adequacy in the high schools. A student population bubble on target to graduate in 2021 and 2022 has passed through the elementary schools and has now entered the high schools, causing over-crowding issues. The Career Center, which serves in preparing students for career ready jobs out of high school, is also in need of substantial renovations and new construction.

The Billings Education Foundation and the various parent organizations are separate legal entities. The impacts of these individual entities are considered immaterial to the overall financial status of the district and, as such, are not included in these financial statements. The State of Montana does not provide for Public Charter schools as of yet, but we do have private schools. It is the goal of the school district to work with all schools in the area to be sure that all student's academic achievements are in the fore front of all goals and objectives.

#### **ECONOMIC CONDITION AND OUTLOOK**

#### Local Economy

The Billings School District is located in south-central Montana within Yellowstone County. Billings is the largest city in Montana and serves as the county seat.

Billings benefits from a diverse economy as a regional center for agriculture, retail, medical services, transportation, education, law and government services. The Billings area is a regional center for the energy industry with three major oil refineries located within the county. Billings has seen significant growth in industries that serve rural areas including professional and technical services, wholesale trade, finance and insurance. Yellowstone County's economy continues to grow fueled by rising consumer demand and retail trade. Despite a collapse in oil prices because of oversupply, production remained relatively steady through last year, and Yellowstone County's economy preserved through brisk construction and other healthy sectors. The state is near full employment and seeing wage growth in the retail sector. Montana's tourism business continues to provide opportunities to Billings which has adopted the nickname, "Montana's trailhead." Billings serves as a major starting point for visitors to Yellowstone and Grand Teton national parks. Healthcare remains a bright spot in the Billings economy. In the next decade, hospitals, clinics and other facilities will add 16,000 jobs in Yellowstone County just to meet needs of an aging Baby Boomer population and other growth. Growth in the sector slowed over the last five years but is expected to return to previous levels. Higher education opportunities continue to grow at MSU-Billings, City College and Rocky Mountain College as evidenced by steady enrollment at all three institutions. The city is a major trade center for eastern Montana and northern Wyoming. The absence of a sales tax attracts customers from northern Wyoming.

#### **Major Initiatives**

Our continual long-range strategic planning initiative has helped us to identify major areas in need of enhancement within our district and the Billings community. Identifying those needs and determining which programs and activities to enhance was only half the battle. We recognize that when we all work together to implement the elements of our strategic plan the results will be closing the achievement gap between students, increasing graduations rates and preparing our students for career, college and life in an ever-changing world. Over the past three years Billings Public Schools has completed the following initiatives: High school redistricting; converting to a 6-8 middle school model; increased focus on career and technical education; building and opening two new middle schools; and expanding dual credit opportunities for high school students. Moving forward, a high school bond initiative will need to be considered to help increase enrollment at the Career Center, renovate Daylis Stadium, and update HVAC systems at the high school buildings. The strategic plan for the Business Office includes a commitment to transparency with our stakeholders, collaboration in assessing curriculum programs, student achievement to produce an academic return on investment, and establishing accurate 5-year outward projections for the district.

#### **Financial Information**

The district is required by state law to annually adopt budgets for certain funds, generally those supported by property taxes. The elementary and high school board of trustees must meet to legally adopt final budgets on or before August 25<sup>th</sup> immediately preceding the school year. The Board of Trustees has the legal authority to establish budgets for the districts within the parameters established by the State of Montana. The primary building blocks of the district's overall financial planning include appropriated governmental funds for: General, Transportation, Tuition, Retirement, Adult Education, Technology Acquisition, Flexibility, Debt Service and Building Reserve. The budgetary control is at the fund level as required by Montana Law.

Management of the district is responsible for establishing and maintaining an internal control system designed to ensure that the assets of the district are protected from losses, theft or misuse, and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of the control should not exceed the benefit likely to be derived and the valuation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework. We believe that the district's internal accounting controls adequately safeguard assets and provide reasonable assurance of accurate recording of financial transactions.

As a recipient of federal and state financial assistance, the district is also required to undergo an audit in conformity with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principals, and Audit Requirements for Federal Awards (Uniform Guidance).

The analysis of balances and transactions of the individual funds are presented in detail in the MD&A.

Montana law requires that Billings Public Schools publish audited financial statements within six months of the close of each fiscal year. This Comprehensive Annual Financial Report exceeds that requirement. The scope of the audit concentrates on the following areas:

- 1. Management Section: report on compliance with laws and regulations and report on the internal control structure.
- 2. Financial Section: report on financial statements in accordance with GAAP.
- 3. Single Audit Section (Uniform Guidance): report on financial statements, internal control, compliance, audit findings and questioned costs.

The district is in compliance with the above requirements, and the auditor's opinion has been included in this report.

#### Certificates of Excellence

This report has been prepared following guidelines recommended by the Government Finance Officers Association (GFOA) of the United States and the Association of School Business Officials (ASBO). The district has been awarded the Certificate of Achievement for Excellence in Financial Reporting by the GFOA and the Certificate of Excellence by ASBO for fiscal years 2007 - 2017. The awards are valid for a period of one year only. We believe our current report continues to conform to the GFOA and ASBO requirements, and we will submit it for determination of its eligibility for a renewed award.

#### Acknowledgements

The preparation of the annual financial report was made possible by the dedicated efforts of the Business Services Department.

In closing, we would like to thank the trustees for their interest and support in planning and conducting the operations of the district in a responsible manner.

Respectfully Submitted,

Greg Upham Superintendent Craig Van Nice Chief Financial Officer Daniela Walsh Director of Business Services

#### **Independent Auditor's Report**

To the Board of Trustees of Billings Public Schools Billings, Montana

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Billings Public Schools as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Billings Public Schools' basic financial statements as listed in the table of contents.

#### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Billings Public Schools, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Emphasis of Matter**

As discussed in Notes 1 and 4 to the financial statements, Billings Public Schools has adopted the provisions of GASB Statement No. 75, *Accounting and Financial Reporting for Other Postemployment Benefits Other Than Pensions*, which has resulted in a restatement of the net position as of July 1, 2017. Our opinions are not modified with respect to this matter.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, schedule of changes in the total OPEB liability and related ratios, schedules of changes in total pension liability and total pension liability, schedule of proportionate share of the net pension liability teachers and public employees retirement system of Montana, and schedule of contributions teachers and public employees retirement systems of Montana on pages 14 through 21 and 56 through 59 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods or preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Billings Public Schools' financial statements. The introductory section, combining and individual nonmajor fund financial statements, budgetary schedules, State of Montana mandated schedule of changes in fiduciary net position (extracurricular) and enrollment schedule and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and is not a required part of the financial statements.

The combining and individual nonmajor fund financial statements, budgetary schedules, State of Montana mandated schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, budgetary schedules, State of Montana mandated schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated December 13, 2018 on our consideration of Billings Public Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Billings Public Schools' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Billings Public Schools' internal control over financial reporting and compliance.

Billings, Montana December 13, 2018

Esde Sailly LLP

# BILLINGS PUBLIC SCHOOLS MANAGEMENT DISCUSSION & ANALYSIS

The following discussion and analysis of Billings Public School's (referred to as the "the district" or the "government") financial performance provides an overview of the district's financial activities for the year ended June 30, 2018. We encourage the readers to consider the information presented here in conjunction with additional information presented in the financial statements and footnotes.

#### **FINANCIAL HIGHLIGHTS**

- o Revenues from government wide activities increased \$.9 million (from 2017 to 2018) to \$186.3 million. This represents a .5% increase over the prior year.
- Governmental activity expenses increased \$11 million over 2017 to \$190 million. This represents a 6.2% increase over the prior year.
- At year-end, the governmental funds reported total fund balances of \$57 million, a decrease of \$8 million over the prior year, mainly due to the construction of a new middle school.
- General fund reserves decreased \$1.9 million.
- o The 2018 general fund expenditure budget was \$119 million, an increase of \$2.8 million or 2.4% over the prior year.
- o In fiscal 2016 \$33 million in voter approved bonds were issued. The proceeds are being used for the purpose of providing funds to pay a portion of the costs of building or improving schools in accordance with the district's facility master plan.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the district.

The first two statements are *government-wide financial statements* that provide both short-term and long-term information about the district's overall financial status.

The remaining statements are *fund financial statements* that focus on individual parts of the district, reporting the district's operations in more detail than the government-wide statements.

- The governmental funds statements tell how basic services like regular and special education were financed in the short-term as well as what remains for future spending.
- The proprietary funds statements provide information on internal service funds used to provide services to all other district funds.
- Fiduciary funds statements provide information about the financial relationships in which the district acts solely as a trustee or agent for the benefit of others.

The financial statements also include *notes* that explain some information in the statements and provide more detailed data.

The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the district's budget to actual amounts for the year.

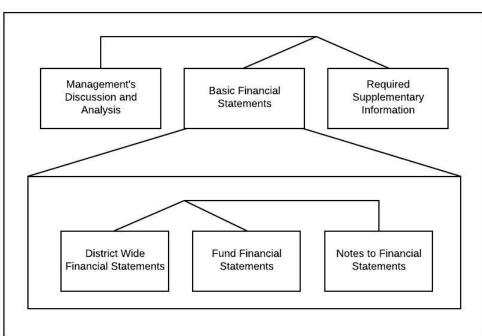

Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

## Figure A-2 Major Features of Government-Wide and Fund Financial Statements

		Fund Financial Statements			
	Government-wide Statements	Governmental Funds	Fiduciary Funds		
Scope	Entire District (except fiduciary funds)	The activities of the district that are not proprietary or fiduciary, such as special education and building mainenance	Instances in which the district administers resources on behalf of someone else, such as scholarship programs and student activities monies.		
Required financial statements	Statement of net position Statement of activities	Balance Sheet Statment of revenues, expenditures and changes in fund balances	Statement of net position Statement of changes in net position		
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accural accounting and economic resources focus		
Type of asset/liability information	All assets and liabilities both financial and capital, short-term and long-term	Generally assets expected to used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both short-term and long-term. Funds do not currently contain capital assets, although they can		
Type of inflo w/ outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year, expenditures when goods or services have been received and related liability is due and payable	All additions and deductions during the year, regardless of when cash is received or paid		

Figure A-2 summarizes the major features of the district's financial statements, including the portion of the district's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

Government-wide financial statements One of the most important questions asked about the district's finances is, "Is the government, as a whole, better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities (pages 22 and 23) report information about the district as a whole and about its activities in a way that helps answer this question. These statements include all assets, liabilities, deferred outflows of resources and deferred inflows of resources using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. These two statements report net position and the changes in it. You can think of net position - the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources - as one way to measure the district's financial health, or financial position. Over time, increases or decreases in net position is an indicator of whether the district's financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the property tax base, economy, enrollment and the State's funding of educational costs to assess the district's overall health.

# BILLINGS PUBLIC SCHOOLS MANAGEMENT DISCUSSION & ANALYSIS

**Fund financial statements** The fund financial statements provide detailed information about the most significant funds—not the district as a whole. Some funds are required to be established by State law. Also, the governing body establishes many other funds to help it control and manage money for particular purposes or to meet legal responsibilities for using certain taxes, grants and other money. The district utilizes the following funds:

Governmental funds—Basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements (pages 24 and 26) provide a detailed short-term view of the general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliations (pages 27 and 27, respectively).

**Proprietary funds**—The district maintains one proprietary fund type which contains internal service funds. Internal service funds are an accounting device used to accumulate and allocate costs internally among the district's various functions. When the district charges customers for the services it provides, whether to outside customers or to other departments of the district, these services are generally reported in proprietary funds. The district uses three internal service funds (two insurance funds and one purchasing fund) to account for services provided to the other funds of the district. The internal service funds use the same accounting method as the government-wide statements and are included with the governmental activities shown on those statements.

The three internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. The basic proprietary fund financial statements can be found on pages 28, 29 and 30 of this report. The district has no material business-type activities.

**Fiduciary funds**—Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds use the accrual basis of accounting. The district excludes these activities from the other financial statements because it cannot use these assets to finance its operations. The district is responsible for ensuring that the assets are used for their intended purposes.

#### THE DISTRICT AS A WHOLE

Following are condensed schedules of net position and changes in net position:

NET POSITION:	2018	2017
Current and other assets	\$ 71,036,309	\$ 81,305,028

Due to the implementation of GASB Statement No. 75 in the current year, figures may not be comparable to the prior year for some areas of the financial statements.

## BILLINGS PUBLIC SCHOOLS MANAGEMENT DISCUSSION & ANALYSIS

#### **USING THIS ANNUAL REPORT**

This annual report consists of a series of financial statements. The government-wide financial statements provide information about the activities of the district as a whole and present a longer-term view of the finances. For governmental activities, fund statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the district's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which the district acts solely as a trustee or agent for the benefit of those outside of the district.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Our analysis focuses on the district's net position and changes in net position. The 2018 expenses exceeded revenues by \$3.8 million.

	2018	2017
Revenues Expenses	\$ 186,284,668 190,063,593	\$ 185,435,288 179,000,795
Change in net position	\$ (3,778,925)	\$ 6,434,493

In 2018, net position (deficit) decreased \$7 million. Net position (deficit) decreased \$3.8 million from operations and decreased \$3.2 million due to a prior period adjustment related to the implementation of GASB Statement No. 75.

	2018	2017	 Change
Net investment in capital assets Restricted Unrestricted	\$ 51,101,069 18,731,717 (133,392,874)	\$ 51,818,256 18,713,270 (127,071,672)	\$ (717,187) 18,447 (6,321,202)
Total net position (deficit)	\$ (63,560,088)	\$ (56,540,146)	\$ (7,019,942)

The largest portion of the district's net position (\$51.1 million) is capital assets which include investments in land, buildings, equipment, and improvements less any outstanding debt used to acquire the assets. Most of these capital assets do not generate revenue and instead generate future liabilities because of the associated maintenance costs. Under state law the facilities and equipment which are used to provide services to students and the community can only be sold if the asset is declared to be surplus property. Future funding to complete the required maintenance of assets and to retire the remaining debt related to acquisition of these assets must be provided from unreserved amounts from the district's different funding sources. The district issued \$33 million in voter approved bonds in 2016 to build a new middle school and to address a portion of deferred maintenance costs. Due to bond related projects, the district has reduced its estimated deferred maintenance costs to approximately \$73 million.

The 2018 net position restricted for debt service and other purposes totaling \$18.7 million cannot be reallocated to cover other district expenses.

Unrestricted net position can be used to finance day-to-day operations without constraints established by debt covenants, legislative restrictions, or other legal requirements. The current unrestricted balance is a deficit of \$133 million.

The district's unfunded liability for the total pension liability-service credit and termination pay benefits plan, compensated absences and other postemployment benefits (OPEB) in 2018 was \$65 million. The liability is funded on a pay-as-you-go basis rather than an actuarial basis with the reasonable expectation that projected benefits disbursements will increase substantially. The financial statement amortization of this liability disregards the average number of years before retirement of the district's employees. The district's retirement plans may be unsustainable at current benefit levels. The district will need to address the sustainability of these benefits programs.

## BILLINGS PUBLIC SCHOOLS MANAGEMENT DISCUSSION & ANALYSIS

#### **FUND FINANCIAL STATEMENTS**

The fund financial statements provide detailed information about the most significant sources of funds. To be reported as a major fund, total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures of an individual fund must contribute at least 10 percent of the corresponding total (assets, liabilities, etc.) for all funds. Individual funds are generally allocated or designated for special purposes and in some instances have a mix of restricted, committed, assigned and unassigned fund balances. The fund balances for 2017 were \$65.2 million, while 2018 totals were \$57 million. The major funds were the general, elementary miscellaneous programs, and elementary building funds. The general fund fund balance decreased by \$1.9 million mainly due to a new curriculum adoption and capital projects. The elementary miscellaneous programs fund fund balance increased \$891,923 due to indirect cost, MAC, Medicaid, and ECI revenues exceeding expenditures. The elementary building fund fund balance decreased by \$8.3 million due to bond proceeds being spent on deferred maintenance and construction of a new middle school.

The combined fund balance for all funds decreased by \$8.2 million in 2018.

A budget must be adopted by the Board of Trustees prior to the expenditure of governmental funds. If budgeted expenditures are not recognized during the fiscal year, authorization for the expenditure of unused funds lapses at the end of the fiscal year. If projected expenditures are insufficient to meet district requirements, the Board can adopt a budget amendment after a public hearing that can be held at any time during the fiscal year. The Board did not adopt any budget amendments during 2018.

#### **GENERAL FUND BUDGETARY HIGHLIGHTS**

The general fund is always reported as a major fund (See Note 1). This fund reported a total fund balance of \$15.7 million, a decrease of \$1.9 million over the prior year.

The table below summarizes actual general fund revenues and expenditures for 2018 and 2017. Revenue increased by 2.2% due to a combination of legislative changes in state funding and state mandated inflationary increases which were supported with local tax increases.

A major portion of the 4.7% increase in expenditures was due to increased employment costs. The district also receives an annual increase in budget authority as per state law, which is used to fund increased employment and instructional expenses.

	2018	2017	Change
Revenues:			
Propertytaxes	\$ 39,050	,117 \$ 33,306	,466 \$ 5,743,651

There were no significant budget and actual General fund revenue or expenditure variances in 2018.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets - The district's 2018 capital project budget was used to complete the projects funded by the general fund and bond funds authorized by the voters. Construction in progress as of June 30, 2018 of \$2.6 million consists primarily of projects funded by bond proceeds.

The following schedule presents capital asset balances net of depreciation for the fiscal years ended June 30, 2018 and 2017. The district had \$185.2 million invested in a broad range of capital assets, including technology, equipment and school buildings. Additional information on the district's capital assets can be found in Note 3 of this report.

	2018	2017	Change
Land Construction in progress Improvements other than buildings Buildings and improvements Machinery and equipment	\$ 4,659,72 2,580,20 3,543,61	6 27,557,139	\$ - (24,976,933) 301,235
	167,751,13 6,671,33	8 143,175,231	24,575,907 3,137,634
Total	\$ 185,206,01	2 \$ 182,168,169	\$ 3,037,843

Debt Administration – A summary of the district's outstanding long-term debt for the years ended June 30, 2018 and 2017 is presented below:

	2018	2017	Change
General obligation bonds Limited obligation bonds Premium	\$ 127,689,502 - 10,908,041	\$ 131,839,502 84,250 11,580,644	\$ (4,150,000) (84,250) (672,603)
Total bonds	138,597,543	143,504,396	(4,906,853)
Capital leases Compensated absences Pension related debt Other postemployment benefits	536,276 10,504,359 160,481,598 17,891,604	10,394,586 164,013,413 14,807,000	536,276 109,773 (3,531,815) 3,084,604
Total	\$ 328,011,380	\$ 332,719,395	\$ (4,708,015)

At year-end, the district had \$138.6 million in outstanding bonds. The current portion, which is due within one year, is equal to \$4.4 million. The remainder of the Billings Public School's long-term obligations is comprised of pension related debt and OPEB.

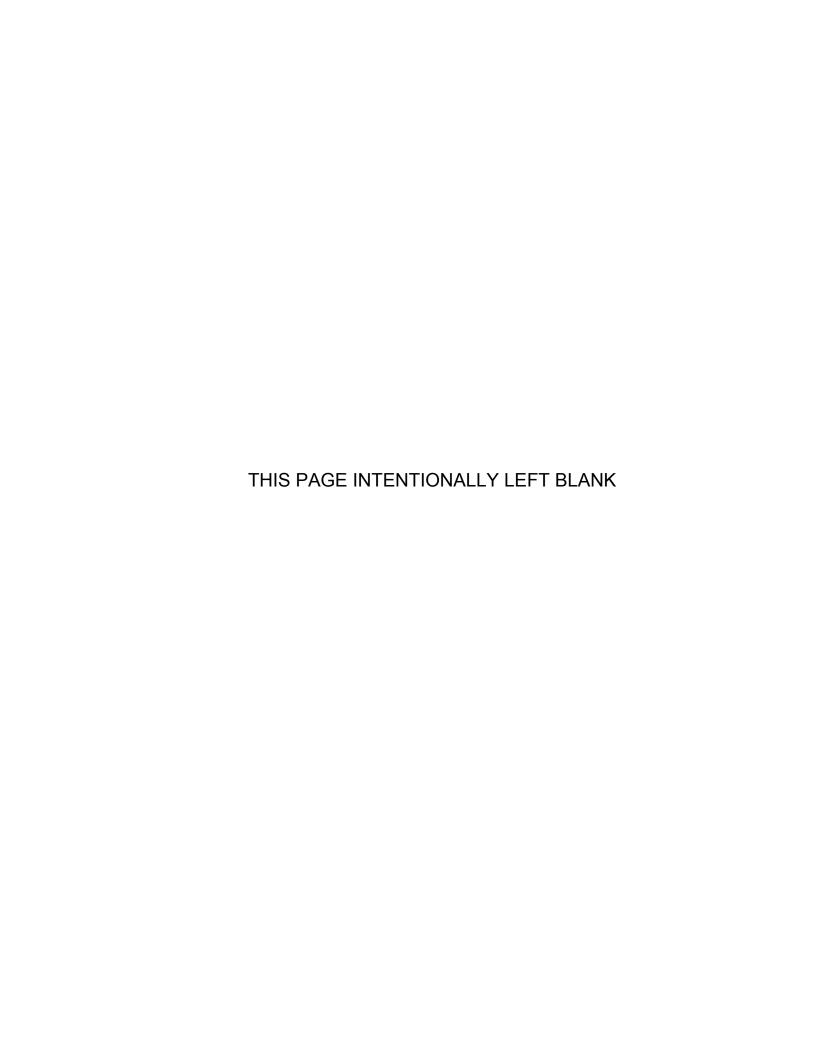

Under current state statutes, a district's general obligation bonded debt issuances are subject to a legal limitation based on taxable value. As of June 30, 2018, the district's total debt outstanding was well below the legal limit of \$879 million. The district has a AA- rating from Standard & Poor's Ratings Services for general obligation debt and a Aa3 from Moody's Investor Service.

Additional information on the district's long-term debt can be found in Note 3 of this report.

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the district's finances and to demonstrate the district's accountability for the resources it receives. If you have questions about this report or need additional information, contact Chief Financial Officer, Craig Van Nice, at Billings Public Schools, 415 North 30<sup>th</sup> Street, Billings, Montana, 59101.

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION June 30, 2018

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balances, governmental funds	\$ 56,926,746
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	185,206,012
Other long-term assets are not available to pay current period expenditures and, therefore, are reported as unavailable revenue in the funds.	266,293
Deferred outflows and inflows of resources related to pensions are applicable to future periods and, therefore, are not reported in the funds:	
Deferred outflows of resources related to pensions	17,032,292
Deferred inflows of resources related to pensions	(3,226,038)
Internal service funds are used by management to charge the cost of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.  Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds. The details of these balances follows:	(9,445,737)
General obligation bonds	(127,689,502)
Capital leases	(536,276)
Issuance premium (to be amortized over life of debt)	(10,908,041)
Compensated absences	(10,457,488)
Accrued interest payable	(246,751)
Total pension liability - service credit and termination pay benefits	(37,026,494)
Net pension liability-teachers' and public employees' retirement systems	 (123,455,104)
Net position (deficit) of governmental activities	\$ (63,560,088)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2018

Amounts reported for governmental activities in the statement of activities are different because.	
Net change in fund balances - total governmental funds	\$ (8,225,190)
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense.	
This is the amount by which capital outlay (\$9,310,879) exceeded depreciation (\$7,120,056) in the current period.	2,190,823
The net effect of various transactions involving capital assets (i.e., sales and donations) is to increase net position.	320,804
Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds.	(1,584,402)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. The details of these transactions follows:	
Amortization of premium on long-term debt issued Repayment of principal on long-term debt	672,603 4,234,250
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:	
Accrued interest Interest expense on capital lease Pension expense-service credit and termination pay benefits Compensated absences Pension expense-teachers' and public employees' retirement systems	6,917 (11,060) (569,709) (112,258) (1,343,638)
The internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of certain activities of the internal service funds is reported with the governmental activities.	 641,935
Change in net position of governmental activities	\$ (3,778,925)

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the district are prepared in accordance with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (statements and interpretations).

The district adopted the provisions of GASB Statement No. 75;

As of July 1, 2017, the district adopted GASB Statement No. 75, Accounting and Financial Reporting for Other Postemployment Benefits Other Than Pensions. The implementation of this standard replaces the requirements of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, and requires governments calculate and report the costs and obligations associated with postemployment benefits other than pensions (OPEB) in their basic financial statements. Employers are required to recognize OPEB amounts for all benefits provided through the plan which include the total OPEB liability, deferred inflows of resources, and OPEB expense. The effect of the implementation of this standard on beginning net position and the additional disclosures required by this standard are disclosed in Note 4.

The district's significant accounting policies are described below.

### Reporting Entity

The district was established under Montana law to provide educational services below the college and university level to residents of the district. The district consists of two legally separate entities: an elementary district and a high school district. Both are managed by a central Board of Trustees and by a central administration appointed by and responsible to the Board. The Board of Trustees annually adopts a procedure committing fund balance resources in accordance with GASB Statement No. 54.

Yellowstone County (the "County") provides substantial services to the district; tax billing, cash collections, debt payments and warrant redemption. The County also maintains the district's cash and invests available funds at the direction of the district. The County Commissioners have a legal obligation to set levy amounts and to approve the budget adopted by the district. However, despite the degree of services provided, the district does not qualify as a component unit of the County.

Although the district consists of two separate statutory entities, it is managed and operated as a single primary government. These financial statements present, as a single reporting entity, all activities of the primary government. A primary government is defined as having a separately elected governing body, being legally separate, and fiscally independent.

# Government-wide and Fund Financial Statements

The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the district. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are supported by taxes and intergovernmental revenues. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. Fiduciary funds are excluded from the government-wide financial statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or identifiable activity. Program revenues include 1) charges for service which report fees and other charges provided by a given function or identifiable activity 2) operating grants and contributions and 3) capital grants. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported in separate columns in the fund financial statements.

# Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements (fiduciary fund financial statements include agency funds, which have no measurement focus). Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the district considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as

# BILLINGS PUBLIC SCHOOLS NOTES TO BASIC FINANCIAL STATEMENTS

well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met. Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. All other revenue items are considered to be measurable and available only when cash is received by the district.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the internal service fund's principal ongoing operations. Operating revenues are charges for sales and services. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The district reports the following major governmental funds:

The general fund is the district's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The elementary miscellaneous programs fund accounts for local, state or federal grants and reimbursements.

The elementary building fund accounts for bond or insurance proceeds, federal funds or property sold by the district for building or construction projects. The building fund is a non-budgeted fund.

Additionally, the district reports the following fund types:

Internal service funds account for the financing of services provided by one department or agency to other departments or agencies on a cost reimbursement basis. The internal service funds account for the activities of the health insurance fund, the insurance deductible fund and the purchasing/printing fund.

Agency funds are custodial in nature and are used to account for assets that the district holds for others in an agency capacity. The agency funds account for the payroll and claims clearing funds.

The district has a private-purpose trust fund, the student extracurricular fund, which accounts for the extracurricular student activities.

# Assets, Liabilities, Deferred Outflows/Inflows and Net Position/Fund Balance

# Cash and Investments

Cash and investments, except amounts in the extracurricular funds, the flexible benefits fund and the petty cash accounts, are held by the County Treasurer. The County Treasurer invests the District's cash at the direction of the government as required by state statute. Allowable investments include direct obligations of the United States Government, repurchase agreements, savings or time deposits in a state or national bank, building and loan associations, savings and loan associations, or credit unions insured by the FDIC, FSLIC, or NCUA and the State Short Term Investment Pool (STIP). STIP is an investment program managed and administered under the direction of the Montana Board of Investments (MBOI) as authorized by the Unified Investment Program. The STIP portfolio is reported at fair value basis versus amortized cost.

Investments are measured at fair value on a recurring basis. Recurring fair value measurements are those that Governmental Accounting Standards Board (GASB) Statements require or permit in the statement of net position at the end of each reporting period. The government had no nonrecurring fair value measurements. Fair value measurements are categorized based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Cash on hand, demand, savings and time deposits, STIP and short-term investments with original maturities of three months or less from the date of acquisition are considered cash equivalents.

# Receivables

All property tax receivables are shown net of an allowance for uncollectibles. The property tax receivable allowance is equal to 6 percent of the outstanding balance at June 30, 2018. The allowance at June 30, 2018, was \$62,613.

Most property taxes are levied in September of each fiscal year, based on assessments as of the prior January 1. Real property taxes are billed as of November 1 and are payable in two payments, November 30 and May 31. Unpaid taxes are considered delinquent on December 1 and June 1, at which time the applicable property is subject to lien, and penalties and interest are assessed. Most personal property taxes are due and payable on January 1 and become delinquent February 1. Property taxes are maintained and collected by the County Treasurer.

#### **Inventories and Prepaids**

Inventory items purchased are recorded as expenditures/expenses at the time of purchase. Inventory at year-end was not material and therefore not recorded. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

# Capital Assets

Capital assets, which include land, construction in progress, buildings, improvements other than buildings and machinery and equipment, are reported in the government-wide financial statements. Capital assets are defined by the district as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Contributed capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Depreciation on capital assets is calculated on the straight-line basis over the following estimated useful lives:

Assets	Years
Land improvements	20
Buildings	10-60
Machinery and equipment	5-20

# Collections Not Capitalized

Certain collections of historic artifacts and works of art are not reported in the accompanying financial statements. These assets have not been capitalized because they meet all of the conditions that qualify them as collections that are not required to be capitalized. These conditions are that the collections are held for public exhibition or education in the furtherance of public service; not held for financial gain; the collections are protected, kept unencumbered, cared for, and preserved; and, any sale proceeds are expected to be used to acquire other items for the collections.

## Compensated Absences

Liabilities associated with accumulated vacation and sick leave is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations or retirements.

Classified employees (non-teaching) earn vacation leave ranging from 15 to 24 days per year depending on the individual's years of service. Accumulated vacation is restricted under state statute to a maximum accumulation of two times the amount earned annually. Vacation leave is absorbed by time off from work, or, with certain limitations, may be payable to the employee upon termination.

Sick leave is accumulated for classified and certified employees at the rate of 12 days per year with no limit on the carry over amount. Upon retirement or resignation, classified and certified employees are eligible for sick leave compensation at one fourth of the accumulated amount.

#### Long-Term Obligations

Long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond issuance costs are recognized as an expense in the period incurred. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

# **Deferred Outflows/Inflows of Resources**

In addition to assets, the district's statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an expense until then. The district has one item that meets this criteria: pension plans.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The district has two items that meet the criterion for this category: pension plans and other postemployment benefits.

#### **Net Position**

In the government-wide statements, equity is classified as net position and displayed in three components:

Net Investment in capital assets - consists of capital assets (net of accumulated depreciation), plus capital-related deferred outflows of resources, less capital-related borrowings and deferred inflows of resources.

Restricted - consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted – any portion of net position that does not meet the definition of "net investment in capital assets" or "restricted."

Proprietary fund equity is classified the same as in the government-wide statements.

It is the government's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

# **Fund Balance**

In the fund statements, governmental fund equity is classified as fund balance. The following classifications describe the relative strength of the spending constraints:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed fund balance - amounts constrained to specific purposes by the government itself, using its highest level of decision-making authority (i.e., governing body). The government establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. To be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint.

Assigned fund balance - amounts the government intends to use for a specific purpose. Intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.

Unassigned fund balance - amounts that are available for any purpose. Positive amounts are reported only in the general fund.

The district establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption or amendment of the budget. Assigned fund balance in the general fund represents amounts available to fund the subsequent year's budget and to cover payroll and operating expenditures due to the timing of tax receipts. The Board of Trustees has designated the Superintendent, or his designee, individually and/or collectively, as having authority to express assignments in the District's governmental funds. The Board of Trustees has adopted policy 7000, Financial Management and annually adopts procedure 7000-P3 Fund Balance Resources for Special Revenue Funds to comply with GASB Statement No. 54.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the district considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the district considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing body has provided otherwise in its commitment or assignment actions.

#### Miscellaneous Revenue

Miscellaneous revenue includes other revenue from local sources which is not classified elsewhere.

# **Estimates**

The preparation of financial statements, in conformity with GAAP, requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

## NOTE 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### **Deficit Fund Equity**

The health insurance fund, an internal service fund, had a deficit net position of \$9,807,605 as of June 30, 2018. The deficit exists in the health insurance fund because of the unfunded liability for other postemployment benefits. The district is in the process of reviewing the funding of the health insurance fund in order to reduce or eliminate the deficit.

### NOTE 3. DETAILED NOTES ON ALL FUNDS

# Equity in Pooled Cash and Investments

As discussed in Note 1, the district participates in the County's investment pool. The pooled cash is invested by the County Treasurer in accordance with State statute. Interest earnings are distributed to the district based on average daily balances. The County Treasurer withdraws funds as needed to pay warrants. Investment risk related to the district's share of the pool is not determinable. Information related to the pool can be obtained from the County. Demand and savings accounts held outside of the County pool were covered by FDIC insurance. The uninsured portion was covered by collateral held by financial institutions or by their departments or agents, but not in the district's name. The amount of collateral held for the district's deposits as of June 30, 2018, exceeded the amount required by State statute. The County has not provided nor obtained any legally binding guarantees during the fiscal year ended June 30, 2018 to support the value of shares in the pool. The district does not currently have a policy on custodial credit risk. Along with limitations placed on investments by state law, the County minimizes custodial risk by restrictions set forth by County policy. The County maintains a listing of financial institutions which are approved for investment purposes.

The County's investment policy addresses the soundness of financial institutions in which the County will deposit funds, types of investment instruments as permitted by State statute, and the percentage of the portfolio which may be invested in certain instruments with longer terms to maturity. The objectives of the policy, in order of priority, are safety, liquidity, and yield. The County has established an oversight committee, comprised of various County officials and representatives of other local governments with large cash balances, to monitor and review the management of public funds maintained in the investment pool in accordance with Title 7, Chapter 6, Part 2 of the Montana Code Annotated and as qualified by Attorney General Opinion Vol. 42, No. 25. The Treasurer prepares and submits a comprehensive investment report to the members of the oversight committee and the investment pool participants every month. The report covers the type of investments in the pool, maturity dates, par value, actual cost, and fair value.

## Disaggregation of Payable Balances

Payables as of June 30, 2018, were as follows:

	 Vendors	 laries and Benefits	 not reported	Total
General	\$ 726,898	\$ 537,402	\$ -	\$ 1,264,300

# Long-Term Debt

During the year ended June 30, 2018, the following changes occurred in long-term debt:

, ,	Balance		3		Balance	Due Within
	July 1, 2017	Additions	<u> </u>	Retirements	June 30, 2018	One Year
Bonds payable:						
General obligation bonds	\$ 131,839,502	\$	-	\$ (4,150,000)	\$ 127,689,502	\$ 4,315,000
Limited obligation bonds	84,250		-	(84,250)	-	-
Premium	11,580,644			(672,603)	10,908,041	
Total bonds payable	143,504,396		<u> </u>	(4,906,853)	138,597,543	4,315,000
Capital leases	-	759,	178	(222,902)	536,276	101,081
Compensated absences	10,394,586	9,645,	007	(9,535,234)	10,504,359	1,050,436

A substantial portion of compensated absences and the service credit and termination pay benefits are paid from the General fund. The OPEB obligation is paid from the Health Insurance fund, an internal service fund.

#### Capital Leases

The district entered into a capital lease agreement for scoreboards under which the equipment will become the property of the district when all terms of the lease agreement are met. Assets acquired through capital leases are as follows:

Machinery and equipment \$ 759,178 Less: accumulated depreciation \$ (63,265) \$ 695,913

The future minimum lease obligations and the present value of these minimum lease payments, as of June 30, 2018, are as follows:

-	Year ending June 30,	
	2019	\$ 116,981
	2020	116,981
	2021	116,981
	2022	116,981
	2023	116,982
Total minimum lease payments		584,906
Less: amount representing interest	est	(48,630)
Present value of minimum lease	payments	\$ 536,276

# **General Obligation Bonds**

On December 29, 2010, the district issued general obligation school building bonds in the amount of \$12,000,000. General obligation bonds are direct obligations and pledge the full faith and credit of the district. The bonds were designated as Qualified School Construction Bonds (QSCB) and Qualified Zone Academy Bonds (QZAB). As such, the district is entitled to receive payments from the United States Treasury Department equal to 100% of the interest payments. The proceeds from these general obligation bonds will be used for the purpose of rehabilitating or improving various school facilities within the district. The bonds bear interest at 5.4% per annum and will be paid back through sixteen annual sinking fund deposits. The sinking fund deposits, along with earnings on those deposits, will be used to retire the bonds on June 15, 2027. The district will reduce the annual bond payment by the amount of interest earnings from the sinking fund. The elementary and high school debt service funds will be servicing 100% of the general obligation debt payments.

On July 26, 2012, the district issued general obligation school building bonds in the amount of \$4,540,000. General obligation bonds are direct obligations and pledge the full faith and credit of the district. The bonds were designated as Qualified Zone Academy Bonds (QZAB). As such, the district is entitled to receive payments from the United States Treasury Department equal to 100% of the interest payments. The proceeds from these general obligation bonds will be used for the purpose of rehabilitating or improving various school facilities within the district. The bonds bear interest at 4.25% per annum and will be paid back through twenty annual sinking fund deposits. The sinking fund deposits, along with earnings on those deposits, will be used to retire the bonds on June 15, 2032. The district will reduce the annual bond payment by the amount of interest earnings from the sinking fund. The elementary debt service fund will be servicing 100% of the general obligation debt payments.

On July 26, 2012, the district issued general obligation school building bonds in the amount of \$1,271,000. General obligation bonds are direct obligations and pledge the full faith and credit of the district. The bonds were designated as Qualified Zone Academy Bonds (QZAB). As such, the owners of the tax credit bonds are allowed a credit against their federal income tax liability. The proceeds from these general obligation bonds will be used for the purpose of rehabilitating or improving various school facilities within the district. The applicable tax credit rate was 4.25%. The bonds will be paid back through ten annual sinking fund deposits. The sinking fund deposits, along with earnings on those deposits, will be used to retire the bonds on June 15, 2032. The district will reduce the annual bond payment by the amount of interest earnings from the sinking fund. The elementary debt service fund will be servicing 100% of the general obligation debt payments.

On July 26, 2012, the district issued general obligation school building bonds in the amount of \$8,333,502. General obligation bonds are direct obligations and pledge the full faith and credit of the district. The bonds were designated as Qualified Energy Conservation Bonds (QECB). As such, the district is entitled to receive payments from the United States Treasury Department equal to 70% of the interest payments. The proceeds from these general obligation bonds will be used for the purpose of rehabilitating or improving various school facilities within the district. The bonds bear interest at 4.25% per annum and will be paid back through twenty annual sinking fund deposits. The sinking fund deposits, along with earnings on those deposits, will be used to retire the bonds on June 15, 2032. The district

will reduce the annual bond payment by the amount of interest earnings from the sinking fund. The elementary and high school debt service funds will be servicing 100% of the general obligation debt payments.

On January 30, 2014, the district issued general obligation school building bonds in the amount of \$80,900,000. General obligation bonds are direct obligations and pledge the full faith and credit of the district. The proceeds from these general obligation bonds will be used for the purpose of providing funds to pay a portion of the costs of building or improving schools in accordance with the district's facilities master plan. Interest rates range from 2.125% to 5.000% payable semiannually on December 15 and June 15. The bonds can be redeemed at par on June 15, 2025 or any date thereafter. The bonds mature beginning June 15, 2015 through 2034. The elementary debt service fund will be servicing 100% of the general obligation debt payments.

On September 29, 2015, the district issued general obligation school building bonds in the amount of \$33,000,000. General obligation bonds are direct obligations and pledge the full faith and credit of the district. The proceeds from these general obligation bonds will be used for the purpose of providing funds to pay a portion of the costs of building or improving schools in accordance with the district's facilities master plan. Interest rates range from 3.0% to 5.00% payable semiannually on December 15 and June 15. The bonds can be redeemed at par on June 15, 2025 or any date thereafter. The bonds mature beginning June 15, 2017 through 2035. The elementary debt service fund will be servicing 100% of the general obligation debt payments.

Annual debt service requirements to maturity for bonds payable are as follows:

Year ending	General Obligation Bonds				
June 30,		Principal		Interest	
2019	\$	4,315,000	\$	5,922,024	
2020		4,505,000		5,730,574	
2021		4,720,000		5,518,124	
2022		4,890,000		5,348,074	
2023		5,135,000		5,103,574	
2024-2028		41,500,000		21,034,170	
2029-2033		51,504,502		10,043,221	
2034-2035		11,120,000		606,850	
	\$	127,689,502	\$	59,306,611

# NOTE 4. OTHER INFORMATION

# Risk Management

The district is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; professional liability (i.e., errors and omissions); workers compensation (i.e., employee injuries); medical insurance costs; and environmental damages. A variety of methods is used to provide insurance for these risks. Commercial policies, transferring all risks of loss, except for relatively small deductible amounts, are purchased for theft, damage or destruction of assets, professional liabilities and employee medical costs. The district participates in the Montana Schools Group's Workers' Compensation Risk Retention Program, a state-wide public risk pool currently operating as a common risk management and insurance program for the member school districts. The district pays quarterly premiums for its employee injury insurance coverage. The agreement for formation of the pool provides that it will be self-sustaining through member premiums. There are no deductibles or maximum coverage limits in the plan. Given lack of coverage available, the district has no coverage for potential losses from environmental damages. Coverage limits and the deductibles on the commercial policies have remained relatively constant for the last several years. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

#### Self-Insurance

During the year ended June 30, 2018, employees of the district were covered by a medical self-insurance plan (the "plan"). The district contributed approximately \$735 per month per employee to the plan and employees, at their option, authorized payroll withholdings to pay contributions for dependents. In spring of 2013 the district opened two in house clinics to manage health care cost. Claims were paid by a third party administrator acting on behalf of the district.

The administrative contract between the district and the third party administrator is renewable annually and administrative fees and stoploss premiums are included in the contractual provisions. The district was protected against unanticipated catastrophic individual loss by stop-loss coverage through Optum. Stop-loss coverage was in effect for individual claims exceeding \$175,000.

The costs associated with the medical self-insurance plan are reported as interfund transactions. Accordingly, they are treated as operating revenues in the internal service fund and as operating expenditures in the governmental funds. The liability as of June 30, 2018, is based on the requirements of GASB Statement 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The liability includes an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines and damage awards, the process used in computing claims liability does not result in an exact amount.

Changes in the claims liability amount during fiscal year 2018 and 2017 were:

	Curent Year Claims and		
Liability July 1,	Changes in Estimates	Claims Payments	Liability June 30,
2,004,695	15,599,092	(15,699,092)	1,904,695
1,904,695	17,461,210	(17,191,529)	2,174,376

# Commitments and Contingencies

At year-end, the district had commitments outstanding, in the form of purchase orders, of approximately \$165,846, primarily for construction projects, equipment and supplies. The following schedule displays encumbrances for the general fund and nonmajor funds in the aggregate.

	 General Fund
Assigned:	
Instruction	50,907
Support services:	
Instructional staff	41,791
Business services	4,625
Operation and maintenance	54,673
Capital outlay	 13,850
	_
	\$ 165,846

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the district expects such amounts, if any, to be immaterial.

Presently there are no significant outstanding lawsuits. In the opinion of the district's counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the district.

#### **Retirement Plans**

#### Plan Descriptions

The Teacher's Retirement System (TRS) is a mandatory-participation multiple-employer cost sharing defined-benefit public pension plan that provides retirement services to individuals employed as teachers, administrators, and in other professional and skilled positions employed in public education in Montana. The TRS Board is the governing body and the TRS staff administers the system in conformity with the laws set forth in Title 19, chapter 20 of the Montana Code Annotated (MCA), and administrative rules set forth in Title 2, chapter 44 of the Administrative Rules of Montana. Additional information pertaining to membership, benefit structure, and prior years' actuarial valuations, as well as links to applicable statutes and administrative rules, may be obtained by visiting the TRS web site at trs.mt.gov.

The Public Employees Retirement System (PERS) Defined Benefit Retirement Plan (DBRP), administered by the Montana Public Employee Retirement Administration (MPERA), is a multiple-employer, cost-sharing plan established July 1, 1945, and governed by Title 19, chapters 2 and 3, MCA) The PERS-DBRP provides retirement, disability, and death benefits to plan members and their beneficiaries. All new members are initially members of the PERS-DBRP and have a 12-month window during which they may choose to remain in the PERS-DBRP or join the PERS-DCRP by filing an irrevocable election. Members may not be participants of both the defined benefit and defined contribution retirement plans. Benefits are established by state law and can only be amended by the Legislature. Benefits are based on eligibility, years of service, and highest average compensation. Member rights are vested after five years of service. Additional information pertaining to membership, benefit structure, and prior years' actuarial valuations, as well as links to applicable statutes and administrative rules, may be obtained by visiting the PERS web site at mpera.mt.gov.

#### Pension Benefits

### Teachers' Retirement System

TRS provides retirement, disability, and death benefits. Through June 30, 2013, all members enrolled in TRS participated in a single-tiered plan ("Tier One"). Employees with a minimum of 25 years of service or who have reached age 60 with 5 years of service are eligible to receive an annual retirement benefit equal to creditable service years divided by 60 times the average final compensation. Final compensation is the average of the highest three consecutive years of earned compensation. Benefits fully vest after 5 years of creditable service. Vested employees may retire at or after age 50 and receive reduced retirement benefits. Beginning July 1, 2013, new members in TRS participate in a second benefit tier ("Tier Two"), which differs from Tier One as follows:

- Tier Two uses a 5-year average final compensation (as opposed to 3-year AFC in Tier One).
- Tier Two provides for unreduced service retirement benefits at age 60 with 5 years of creditable service or at age 55 with at least 30 years of creditable service (rather than at age 60 with 5 years of service or at any age with creditable service in 25 years in Tier One).
- Tier Two provides for early retirement benefits with 5 years of creditable service at age 55 (rather than age 50 in Tier One).
- Tier Two has a one percent higher normal employee contribution rate (though a temporary 1% supplemental employee contribution rate is also now currently in place for Tier One members).
- Tier Two provides for an enhanced benefit calculation 1.85% x AFC x years of creditable service for members retiring with at least 30 years of creditable service and at least 60 years of age (rather than 1.6667 x AFC x years of creditable service).

A guaranteed annual benefit adjustment (GABA) is payable on January 1st of each calendar year for each retiree who has received at least 36 monthly retirement benefit payments prior to that date. The GABA is applicable to both Tier One and Tier Two members. The GABA for Tier One members is 1.5% of the benefit payable as of January 1st. For Tier Two members the GABA each year may vary from 0.5% to 1.5% based on the retirement system's funding status and the period required to amortize any unfunded accrued actuarial liability as determined in the prior actuarial valuation.

# Public Employees Retirement System

Plan members hired prior to July 1, 2011 are eligible to retire at age 60 with 5 years of membership service, age 65 regardless of years of membership service or any age with 30 years of membership service. Benefits are calculated as follows: 1) if less than 25 years of membership service, 1.785% of the member's highest average compensation (HAC) multiplied by years of service credit or 2) if 25 years of membership service or more, 2% of HAC multiplied by years of service credit.

Plan members hired on or after July 1, 2011 are eligible to retire at age 65 with 5 years of membership service or age 70 regardless of years of membership service. Benefits are calculated as follows: 1) if less than 10 years of membership service, 1.5% of the member's HAC multiplied by years of service credit, 2) if between 10 and 30 years of membership service, 1.785 of HAC multiplied by years of service credit, or 3) if 30 years of membership service or more, 2% of HAC multiplied by years of service credit.

Plan members who retire before January 1, 2016 and accumulate at least 2 years of additional service credit receive a recalculated retirement benefit based on the laws in effect at second retirement. Plan members who retire on or after January 1, 2016 and accumulate 5 or more years of additional service credit receive the same retirement benefit as prior to their return to service and a second retirement benefit for the second period of service based on the laws in effect at second retirement.

For members who have been retired at least 12 months, a Guaranteed Annual Benefit Adjustment (GABA) will be made each year equal to 1). 3% for members hired prior to July 1, 2007, 2). 1.5% for members hired between July 1, 2007 and June 30, 2013 or, 3). Members

# BILLINGS PUBLIC SCHOOLS NOTES TO BASIC FINANCIAL STATEMENTS

hired on or after July1, 2013: a). 1.5% for each year PERS is funded at or above 90%; b). 1.5% is reduced by .1% for each 2% PERS is funded below 90%; and c). 0% whenever the amortization period for PERS is 40 years or more.

#### Member and Employer Contributions

# Teachers' Retirement System

The TRS funding policy provides for monthly employee and employer contributions at rates specified by state law. Plan members, for the fiscal year ending June 30, 2018, were required to contribute 8.15% of their earned compensation. TRS employers were required to contribute 8.87% of earned compensation. Pursuant to 19-20-609, MCA, the employer contribution rate will increase by 0.10% each year beginning July 1, 2014 through fiscal year 2024. The State's General Fund contributes an additional 2.49% of earned compensation. Finally, the State is also required to contribute \$25 million in perpetuity payable July 1st of each year.

# Public Employees Retirement System

All members contribute 7.9% of their compensation. Interest is credited to member accounts at the rates determined by the Board. All member contributions will be decreased to 6.9% on January 1 following the actuary valuation results that project the amortization period to drop below 25 years. Member contributions are made through an "employer pick-up" arrangement that results in deferral of taxes on the contributions.

Employers contributed 8.2% of each member's compensation. This was temporarily increased from 6.9% on July 1, 2013. Beginning July 1, 2014, employer contributions will increase an additional 0.1% a year over 10 years, through 2024. The employer additional contributions terminates on January 1 following actuary valuation results that show the amortization period of the PERS-DBRP has dropped below 25 years and would remain below 25 years following the reductions of both the additional employer and member contributions rates. The State's General Fund contributes an additional .37% of earned compensation. Effective July 1, 2013, contributions are also made to the system from the Coal Tax Fund. Beginning July 1, 2013, employers are required to make contributions on working retirees' compensation. Member contributions for working retirees are not required.

# Net Pension Liability, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions

At June 30, 2018, the district recorded a liability of \$103,545,175 (TRS) and \$19,909,929 (PERS) for its proportionate share of the net pension liability.

TRS and PERS have a special funding situation in which the State of Montana is legally responsible for making contributions directly to TRS and PERS on behalf of the district. Due to the existence of this special funding situation, the district is required to report the portion of the State of Montana's proportionate share of the collective net pension liability. The district's and State of Montana's proportionate share of the net pension liability are presented below:

	Net Pension Liability June 30, 2018			
	TRS PERS			
Employer proportionate share State of Montana proportionate	\$ 103,545,175	\$ 19,909,929		
share associated with employer	65,725,830	949,347		
Total	\$ 169,271,005	\$ 20,859,276		

The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017 for TRS and June 30, 2016 for PERS. The district's proportion of the net pension liability was based on the district's contributions received by TRS and PERS during the measurement period July 1, 2016, through June 30, 2017, relative to the total employer contributions received from all TRS and PERS participating employers. At June 30, 2018, the district's proportion was 6.1412 and 1.0223 percent for TRS and PERS, respectively.

For the year ended June 30, 2018, the district recognized \$9,486,338 (TRS) and \$2,048,663 (PERS) for its proportionate share of the pension expense. The district also recognized grant revenue of \$3,234,401 (TRS) and \$335,427 (PERS) for the support provided by the State of Montana for its proportionate share of the pension expense that is associated with the district. Total pension expense recognized was \$12,720,739 and \$2,384,090 for TRS and PERS, respectively.

At June 30, 2018, the district reported its proportionate share of TRS and PERS deferred outflows and inflows of resources from the following sources:

	Т	RS	PERS			
	Deferred	Deferred	Deferred	Deferred		
	Outflows of	Inflows of	Outflows of	Inflows of		
	Resources	Resources	Resources	Resources		
Differences between expected and						
actual economic experience	\$ 380,800	\$ 154,807	\$ 490,319	\$ 28,818		
Changes in actuarial assumptions	-	432,889	-	133,716		
Difference between projected and						
actual investment earnings	-	409,769	2,721,479	-		
Changes in the proportion and differences between actual and						
expected contributions	3,196,288	-	_	308,864		
Employer contributions subsequent	•			•		
to measurement date	9,059,455		1,183,951			
	\$12,636,543	\$ 997,465	\$ 4,395,749	\$ 471,398		

Amounts reported as deferred outflows of resources related to pensions resulting from the district's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended June 30, 2019. Other amounts reported as deferred outflows and inflows of resources will be recognized in pension expense as follows:

Year Ended June 30:	TRS	PERS
2019	\$ (157,601)	\$ 577,324
2020 2021	3,111,996 1,452,805	1,431,746 1,155,104
2022	(1,827,579)	(423,774)

## **Actuarial Assumptions**

For each of the retirement plans, the total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	TRS
Investment rate of return,	
net of investment and	
administrative expenses	7.75%
Salaryincreases	4.00%
Inflation	3.25%

Mortality rates for the TRS retirement plan were based on the RP-2000 Healthy Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale BB. Mortality rates for the PERS retirement plan is based on the RP-2000 Combined Employee and Annuitant Mortality Tables projected to 2020 with Scale BB.

The long-term expected return on pension plan assets is reviewed as part of the regular experience studies prepared for the TRS and PERS plans. The most recent TRS analysis, performed for the period covering fiscal years 2008 through 2013, is outlined in a report dated May 1, 2014, which is located on the TRS website. Several factors are considered in evaluating the long-term rate of return assumption including long term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. The most recent PERS analysis, performed for the period covering fiscal years 2011 through 2016, is outlined in a report dated June 2017, which is located on the MPERA website. Several factors are considered in evaluating the long-term rate of return assumption. These factors include rates of return adopted by similar public sector systems, as well as the utilization of a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset

allocation percentage and then adding expected inflation. The assumption is intended to be a long term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years. Best estimates are presented as the arithmetic real rates of return for each major asset class included in the TRS' and PERS' target asset allocation as of June 30, 2017, and are summarized in the following table:

	TRS		PE	PERS	
	Long-Term			Long-Term	
	Target	Expected	Target	Expected	
	Asset	Real Rate	Asset	Real Rate	
Asset Class	Allocation	of Return	Allocation	of Return	
Cash equivalents	-	-	2.6%	0.10%	
Domestic equity	36.0%	1.73%	36.0%	1.64%	
Foreign equity	18.0%	1.09%	18.0%	1.14%	
Fixed income	23.4%	0.35%	23.4%	0.23%	
Private equity	12.0%	1.02%	12.0%	0.93%	
Real estate	8.0%	0.24%	8.0%	0.32%	
High yield bonds	2.6%	0.08%		-	
	100.0%		100.0%		

# **Discount Rate**

#### Teachers Retirement System

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from participating plan members, employers, and non-employer contributing entities will be made based on the Board's funding policy, which establishes the contractually required rates under Montana Code Annotated. In addition to the contributions, the State general fund will contribute \$25 million annually to TRS payable July 1st of each year. Based on those assumptions, the TRS' fiduciary net position was projected to be adequate to make all the projected future benefit payments of current plan members through the year 2122. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. No municipal bond rate was incorporated in the discount rate.

#### Public Employees Retirement System

The discount rate used to measure the total pension liability was 7.65%. The projection of cash flows used to determine the discount rate assumed that contributions from participating plan members, employers, and nonemployer contributing entities will be made based on the Board's funding policy, which establishes the contractually required rates under Montana Code Annotated. The State contributes 0.1% of salaries for local governments and 0.37% for school districts. In addition, the State contributes coal severance tax and interest money from the general fund. The interest is contributed monthly and the severance tax is contributed quarterly. Based on those assumptions, the PERS' fiduciary net position was projected to be adequate to make all the projected future benefit payments of current plan members through the year 2121. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. No municipal bond rate was incorporated in the discount rate.

## Sensitivity Analysis

The following presents the employer's proportionate share of the TRS net pension liability calculated using the discount rate of 7.75%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1.00% lower (6.75%) or 1.00% higher (8.75%) than the current rate.

	Current		
	1% Decrease Discount Rate 1% Inc		
	(6.75%)	(7.75%)	(8.75%)

### Service Credit and Termination Pay Benefit Plan

## Plan Description

The Billings Public Schools Service Credit and Termination Pay Benefit Plan (the "Plan") is a single-employer, defined-benefit plan covering employees that belong to the following unions or groups; Billings Education Association (BEA), Billings Classified Employees Association (BCEA), Montana Public Employees Association (MPEA), Administrators and Administrative Support. The Plan was established by the Board of Trustees through union agreements and agreements with other employee groups. The Plan does not issue a separate report. Pension expense and related liabilities and deferred inflows/outflows of resources for the Plan are recognized in the financial statements consistent with the provisions of GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. The Plan is a non-trusteed plan that historically has been funded on a pay-as-you-go basis; therefore, no assets have been accumulated and there is no plan fiduciary net position. Accordingly, Billings Public Schools recognizes its total pension liability, rather than a net pension liability. At June 30, 2017, there were 1,741 active employees in the Plan.

Service Credit

#### Plan Benefits

Following is a summary of Plan benefit provisions:

Death Benefit

	GOI VICE GIOGIL
Eligibility	10 Years of service with Billings Public Schools
Benefit	A single amount is payable upon termination or retirement. The amount is dependent on the employee group; the number of years of service credit and the rate of pay
	BEA and Administrators; \$100 per year of service prior to June 30, 1986 plus 2 ½ days of pay for each full year of service After July 1, 1986. No service credit is paid to any teacher or Administrator with more than 35 years of service.
	BCEA, MPEA and Administrative Support: 2 $1\!\!\!/_{\!\!2}$ days of pay for each full year of service.
Rate of Pay	BEA and Administrators: Highest daily rate. BCEA, MPEA and Administrative Support: Most recent daily rate.
Form of Benefit	Lump sum upon termination.

been the employee's date of termination.

Full value of the service credit benefit as if the date of death had

# TRS Option 1 Benefit

Eligibility Employees who are eligible for retirement with TRS at 25 years of service or age 60

and 5 years of service for Normal Retirement, or age 50 and 5 years of service for

Early Retirement.

Benefit TRS Employees may increase their monthly retirement benefit by including their

Termination Pay (service credit, 25% of sick leave, and 100% of vacation leave) in the

calculation of their Average Final Compensation. This option is also available to

beneficiaries of eligible TRS employees who had not yet retired.

As of October 1, 2011, administrators' vacation pay was frozen for the purpose of payment within the district's severance package. As of July 1, 2011, no newly employed administrator is entitled to include vacation pay in the severance payment. Vacation severance pay for administrators is paid at the daily rate earned as of June 30, 2012.

Employee Cost Termination Pay x Employee Rate x Total years of Creditable Service

Employer Cost Termination Pay x Employee Rate x Total years of Creditable Service

# **Total Pension Liability**

Following is the total pension liability:

	_Ju	une 30, 2017	Jι	ıne 30, 2018
Service credit Option 1	\$	16,229,698 20,612,521	\$	16,463,334 20,563,160
Total pension liability	\$	36,842,219	\$	37,026,494
Covered payroll Total pension liability as a %	\$	88,498,935	\$	94,097,244
of covered payroll		41.63%		39.35%

The total pension liability was determined by an actuarial valuation as of the measurement date, calculated based on the discount rate and actuarial assumptions below.

Valuation date	June 30, 2017	June 30, 2017
Measurement date	June 30, 2017	June 30, 2018
Reporting date	June 30, 2017	June 30, 2018

The discount rate was determined based on the Bond Buyer General Obligation 20-Year Municipal Bond Index as of the measurement date.

Discount rate 3.58% 3.87%

Changes in the total pension liability were as follows:

Service cost	\$	2.073.882
Interest on the total pension liability	•	1.346.429
Changes of assumptions		(600,187)
Benefits payments		(2,635,849)
Net change in total pension liability		184,275
Total pension liability - beginning of year		36,842,219
		_
Total pension liability - end of year	\$	37,026,494

# **Actuarial Assumptions**

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial cost method	Entry age normal	
Salary increases	4% plus merit and longevity component based on years of service ranging from 4.51% for 1 year of service to 0.00% for 22 years of service and above.	
Discount rate	3.87%	
Mortality	For males: RP 2000 Healthy Annuitant Mortality Table for ages 50 and above and the RP 2000 Combined Healthy Annuitant Mortality Table for ages 50 and below, set back four years, with mortality improvements projected by Scale BB to 2018	
	For females: RP 2000 Healthy Annuitant Mortality Table for ages 50 and above and the RP 2000 Combined Healthy Annuitant Mortality Table for ages 50 and below, set back two years, with mortality improvements projected by Scale BB to 2018	

# Sensitivity of the Total Pension Liability to Changes in the Discount Rate

The following presents the total pension liability calculated using the discount rate of 3.87%, as well as what the total pension liability would be if it were calculated using a discount rate that is 1.00% lower (2.87%) or 1.00% higher (4.87%) than the current rate.

	Current			
	1% Decrease Discount Rate 1% Incr			
	(2.87%)	(3.87%)	(4.87%)	
Net pension liability-TRS	\$ 39,124,613	\$ 37,026,494	\$ 35,014,475	

# Pension Expense and Deferred Outflows and Inflows of Resources Related to Pensions

For the year ended June 30, 2018, Billings Public Schools recognized pension expense of \$3,205,558. At June 30, 2018, Billings Public Schools reported deferred inflows of resources from changes in assumptions of \$1,757,175.

Amounts reported as deferred inflows of resources will be recognized in pension expense as follows:

Year ended		
June 30:		
	_	
2019	\$	(214,753)
2020		(214,753)
2021		(214,753)
2022		(214,753)
2023		(214,753)
Thereafter		(683,410)

#### Postemployment Health Insurance Benefits Plan (OPEB)

### Plan Description

Billings Public Schools defined benefit OPEB plan provides OPEB for eligible employees of the district. Eligibility criteria are as follows:

- 1) Normal Retirement:
  - a) Tier I. Current active employees must have reached age 60 with at least 5 years of membership service or have at least 25 years of service at any age with Billings Public Schools to be eligible for retiree benefits.
  - b) Tier II. Current active employees must have reached age 55 with at least 30 years of membership service or employees must have reached age 60 with at least 5 years of service with Billings Public Schools to be eligible for retiree benefits.
- 2) Early Retirement:
  - a) Tier I. Current active employees must have reached age 50 with at least 5 years of membership service with Billings Public Schools to be eligible for retiree benefits.
  - b) Tier II. Current active employees must have reached age 55 with at least 5 years of membership service with Billings Public Schools to be eligible for retiree benefits.

The plan is a single-employer, defined benefit OPEB plan administered by Billings Public Schools. Medical, prescription drug and life benefits are self-funded. Dental insurance is fully insured. The plan was established in accordance with Section 20-3-331, MCA. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75.

# **Benefits Provided**

Eligible early retirees receive medical and prescription drug coverage through one of two self funded medical plans. Retirees contribute 100% of the active premium. Medicare eligible retirees receive coverage through a fully insured Medicare Supplement Plan. Eligible retired employees may continue the life insurance coverage they had as active employees on a fully contributory basis. Eligible retired employees receive a dental insurance benefit on a fully contributory basis.

At June 30, 2018, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	999
Inactive employees entitled to but not receiving benefit payments	-
Active employees	1,884
Total	2,883

#### Total OPEB Liability

The total OPEB liability of \$17,891,604 was measured as of June 30, 2018, and was determined by an actuarial valuation as of that date.

The discount rate was determined based on the Bond Buyer General Obligation 20-Year Municipal Bond Index as of the measurement date.

# Changes in the total OPEB liability were as follows:

Total OPEB liability - beginning of year	\$18,048,017
Changes for the year:	
Service cost	493,247
Interest cost	704,950
Changes of assumptions	(703,610)
Benefit payments	(651,000)
Net change	(156,413)
Total OPEB liability - end of year	\$17,891,604

# Actuarial Assumptions and Other Inputs

The total OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

Inflation	3.00%
Salary increases	3.50%
Discount rate	3.58%

Healthcare cost trend rates 7.00% for 2018 decreasing 0.50% per year to an

ultimate rate of 4.50% for 2023 and later years

Change of assumptions reflect a change in the discount rate from 3.58% in 2017 to 3.87% in 2018.

# Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability calculated using the discount rate of 3.87%, as well as what the total pension liability would be if it were calculated using a discount rate that is 1.00% lower (2.87%) or 1.00% higher (4.87%) than the current rate.

1% Decrease		Di	scount Rate	1% Increase			
(2.87%)			(3.87%)	(4.87%)			
Total OPEB liability	\$	15,721,197	\$	17,891,604	\$	20,453,013	•

# Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the total OPEB liability calculated using the healthcare cost trend rate of 7.00%, as well as what the total pension liability would be if it were calculated using a healthcare cost trend rate that is 1.00% lower (6.00%) or 1.00% higher (8.00%) than the current healthcare cost trend rate.

			Hea	althcare Cost		
	19	% Decrease	-	Trend Rate	1	% Increase
	(6%	6 Decreasing	(7%	6 Decreasing	(8%	6 Decreasing
to 3.5		to 3.5%)		to 4.5%)		to 5.5%)
Total OPEB liability	\$	16,929,464	\$	17,891,604	\$	19,405,066

# OPEB Expense and Deferred Outflows and Inflows of Resources Related to OPEB

For the year ended June 30, 2018, Billings Public Schools recognized OPEB expense of \$1,089,558. At June 30, 2018, Billings Public Schools deferred inflows of resources from changes in assumptions of \$594,971.

Amounts reported as deferred inflows of resources will be recognized in OPEB expense as follows:

Year ended June 30:	
2018	\$ (108,639)
2019	(108,639)
2020	(108,639)
2021	(108,639)
2022	(108,639)
Thereafter	(51,776)

#### Restatement of Beginning Net Position

As of July 1, 2017, Billings Public Schools adopted GASB Statement No. 75, Accounting and Financial Reporting for Other Postemployment Benefits Other Than Pensions. The implementation of this standard replaces the requirements of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, and requires governments calculate and report the cost and obligations associated with other postemployment benefits other than pensions in their financial statements, including additional note disclosures and required supplementary information. Beginning net position was restated to retroactively remove the prior OPEB liability reported under GASB Statement No. 45 and adopt the provisions of GASB Statement No. 75 to report the beginning total OPEB liability as follows:

Net position (deficit) - June 30, 2017, as previously reported	\$ (56,540,146)
Remove OPEB liability previously reported under GASB statement No.45	\$ 14,807,000
Add total OPEB liability under GASB Statement No. 75	(18,048,017)
Net position (deficit) - July 1, 2017, as restated	\$ (59,781,163)

## Future Implementation of GASB Pronouncements

The GASB has issued the following pronouncements:

GASB Statement No. 75, Statement 75 replaces the requirements of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Post-employment Benefits Other Than Pensions. Statement 75 requires governments to report a liability on the face of the financial statements for the OPEB that they provide. The provisions in Statement 75 are effective for fiscal years beginning after June 15, 2017.

GASB Statement No. 80, Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016.

GASB Statement No. 82, Pension Issues—an amendment of GASB Statements No. 67, No. 68, and No. 73. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016, except for the requirements of paragraph 7 in a circumstance in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year-end. In that circumstance, the requirements of paragraph 7 are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017.

GASB Statement No. 84, Fiduciary Activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018.

GASB Statement No. 85, Omnibus 2017. The provisions of this Statement are effective for periods beginning after June 15, 2017

# NOTES TO THE BUDGET AND ACTUAL SCHEDULES

State law requires budgets be prepared for certain funds - generally those supported by property tax revenues. Budgets are prepared on the modified accrual basis. State law requires only that a fund's total expenditures not exceed total budgeted expenditures. Budgets may be amended as defined by State law. There were no general fund budget amendments during the year.

The general fund budget is based on the State of Montana's foundation program which is based primarily on enrollment. Budgets of other funds are based on expected revenues and expenditures. The Board of Trustees approves the original budget by the second Monday in August.

State law permits the inclusion of obligations (encumbrances) for construction in progress and the purchase of personal property as expenditures for budget purposes. The budget to GAAP differences consist of merging the compensated absences and multi-district cooperative funds with the general fund for financial statement presentation purposes and encumbrances for the current and prior year.

The District consists of two legally separate entities. State law requires separate legally adopted annual budgets for the elementary and high school general funds. This schedule is a summary of the elementary general and high school general subfunds.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION-PENSION PLAN INFORMATION For the Year Ended June 30, 2018

#### **Teacher's Retirement System**

#### **Changes of Benefit Terms:**

The following changes to the plan provision were made as identified:

The 2013 Montana Legislature passed HB 377 which provides additional revenue and created a two tier benefit structure. A Tier One Member is a person who first became a member before July 1, 2013 and has not withdrawn their member's account balance. A Tier Two Member is a person who first becomes a member on or after July 1, 2013 or after withdrawing their member's account balance, becomes a member again on or after July 1, 2013.

The second tier benefit structure for members hired on or after July 1, 2013 is summarized below:

- Final Average Compensation: Average of earned compensation paid in five consecutive years of full-time service that yields the highest average.
- Service Retirement: Eligible to receive a service retirement benefit if the member has been credited with at least five full years of creditable service and has attained the age of 60; or has been credited with 30 or more years of full-time or part-time creditable service and has attained age 55.
- Early Retirement: Eligible to receive an early retirement allowance if a member is not eligible for service retirement but has at least five years of creditable service and attained age 55.
- Professional Retirement Option: If the member has been credited with 30 or more years of service and has attained the age of 60 they are eligible for an enhanced allowance equal to 1.85% of average final compensation times all service at retirement. Otherwise, the multiplier used to calculate the retirement allowance will be equal to 1.67%.
- Annual Contribution: 8.15% of member's earned compensation.
- Supplemental Contribution Rate: On or after July 1, 2023, the TRS Board may require a supplemental contribution up to 0.5% if the following three conditions are met:

The average funded ratio of the System based on the last three annual actuarial valuations is equal to or less than 80%; and

The period necessary to amortize all liabilities of the System based on the latest annual actuarial valuation is greater than 20 years; and

A State or employer contribution rate increase or a flat dollar contribution to the Retirement System Trust fund has been enacted that is equivalent to or greater than the supplemental contribution rate imposed by the TRS Board.

- Disability Retirement: A member will not be eligible for a disability retirement if the member is or will be eligible for a service retirement on the date of termination.
- Guaranteed Annual Benefit Adjustment (GABA): If the most recent actuarial valuation shows that Retirement System liabilities are at least 90% funded and the provision of the increase is not projected to cause the System's liabilities to be less than 85% funded, the GABA may increase from the 0.5% floor up to 1.5%, as set by the Board.

HB 377 increased revenue from the members, employers and the State as follows:

- Annual State contribution equal to \$25 million paid to the System in monthly installments.
- One-time contribution payable to the Retirement System by the trustees of a school district maintaining a
  retirement fund. The one-time contribution to the Retirement System shall be the amount earmarked as an
  operating reserve in excess of 20% of the adopted retirement fund budget for the fiscal year 2013. The
  amount received was \$22 million in FY 2014.
- 1% supplemental employer contribution. This will increase the current employer rates:

School Districts contributions will increase from 7.47% to 8.47%

The Montana University System and State Agencies will increase from 9.85% to 10.85%.

The supplemental employer contribution will increase by 0.1% each fiscal year for fiscal year 2014 through fiscal year 2024. Fiscal years beginning after June 30, 2024 the total supplemental employer contribution will be equal to 2%.

 Members hired prior to July 1, 2013 (Tier 1) under HB 377 are required to contribute a supplemental contribution equal to an additional 1% of the member's earned compensation.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION-PENSION PLAN INFORMATION

For the Year Ended June 30, 2018

• Each employer is required to contribute 9.85% of total compensation paid to all re-employed TRS retirees employed in a TRS reportable position to the System.

#### Changes in actuarial assumptions and other inputs:

The following changes to the actuarial assumptions were adopted in 2016:

 The normal cost method has been updated to align the calculation of the projected compensation and the total present value of plan benefits so that the normal cost rate reflects the most appropriate allocation of plan costs over future compensation.

The following changes to the actuarial assumptions were adopted in 2015:

- Correctly reflect the proportion of members that are assumed to take a refund of contributions upon termination and appropriately reflect the three year COLA deferral period for Tier 2 Members.
- The 0.63% load applied to the projected retirement benefits of the university members "to account for larger than average annual compensation increases observed in the years immediately preceding retirement" is not applied to benefits expected to be paid to university members on account of death, disability and termination (prior to retirement eligibility.
- The actuarial valuation was updated to reflect the assumed rate of retirement for university members at age 60 is 8.50% as stated in the actuarial valuation report.
- The actuarial valuation was updated to reflect the fact that vested terminations are only covered by the \$500 death benefit for the one year following their termination and, once again when the terminated member commences their deferred retirement annuity (they are not covered during the deferral period). Additionally, only the portion of the terminated members that are assumed to "retain membership in the System" are covered by the \$500 death benefit after termination.

The following changes to the actuarial assumptions were adopted in 2014:

- Assumed rate of inflation was reduced from 3.50% to 3.25%.
- Payroll Growth Assumption was reduced from 4.50% to 4.00%.
- Assumed real wage growth was reduced from 1.00% to 0.75%.
- Investment return assumption was changed from net of investment and administrative expenses to net of investment expenses only.
- Mortality among contributing members, service retired members, and beneficiaries was updated to the following:

For Males: RP 2000 Healthy Annuitant Mortality Table for ages 50 and above and the RP 2000 Combined Healthy Annuitant Mortality Table for ages below 50, set back four years, with mortality improvements projected by Scale BB to 2018.

For Females: RP 2000 Healthy Annuitant Mortality Table for ages 50 and above and the RP 2000 Combined Healthy Annuitant Mortality Table for ages below 50, set back two years, with mortality improvements projected by Scale BB to 2018.

• Mortality among disabled members was updated to the following:

For Males: RP 2000 Disabled Mortality Table for Males, set forward one year, with mortality improvements projected by Scale BB to 2018.

For Females: RP 2000 Disabled Mortality Table for Females, set forward five years, with mortality improvements projected by Scale BB to 2018.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION-PENSION PLAN INFORMATION For the Year Ended June 30, 2018

#### **Public Employees Retirement System**

#### **Changes of Benefit Terms:**

The following changes to the plan provision were made as identified:

2015 Legislative Changes:

General Revisions - House Bill 101, effective January 1, 2016:

Second Retirement Benefit - for PERS:

- 1. Applies to PERS members who return to active service on or after January 1, 2016. Members who retire before January 1, 2016, return to PERS-covered employment, and accumulate less than 2 years of service credit before retiring again:
  - Refund of member's contributions from second employment plus regular interest (currently 0.25%);
  - No service credit for second employment;
  - Start same benefit amount the month following termination; and
  - GABA starts again in the January immediately following second retirement.
- 2. For members who retire before January 1, 2016, return to PERS-covered employment and accumulate two or more years of service credit before retiring again:
  - Member receives a recalculated retirement benefit based on laws in effect at second retirement; and,
  - GABA starts in the January after receiving recalculated benefit for 12 months.
- 3. For members who retire on or after January 1, 2016, return to PERS-covered employment and accumulate less than 5 years of service credit before retiring again:
  - Refund of member's contributions from second employment plus regular interest (currently 0.25%);
  - No service credit for second employment;
  - Start same benefit amount the month following termination; and,
  - GABA starts again in the January immediately following second retirement.
- 4. For members who retire on or after January 1, 2016, return to PERS-covered employment and accumulate five or more years of service credit before retiring again:
  - Member receives same retirement benefit as prior to return to service;
  - Member receives second retirement benefit for second period of service based on laws in effect at second retirement; and,
  - GABA starts on both benefits in January after member receives original and new benefit for 12 months.

Revise DC Funding Laws - House Bill 107, effective July 1, 2015:

Employer Contributions and the Defined Contribution Plan - for PERS and MUS-RP:

• The PCR was paid off effective March 2016 and the contributions of 2.37%, .47%, and the 1.0% increase previously directed to the PCR are now directed to the Defined Contribution or MUS-RP member's account.

2017 Legislative Changes:

General Revisions - House Bill 101, effective July 1, 2017:

Working Retiree Limitations - for PERS:

• If a PERS retiree returns as an independent contractor to what would otherwise be PERS-covered employment, general contractor overhead costs are excluded from PERS working retiree limitations.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION-PENSION PLAN INFORMATION For the Year Ended June 30, 2018

Terminating Employers - Recovery of actuary costs - for PERS:

Employers who terminate participation in PERS must pay the actuarial liability associated with that termination. Starting July 1, 2017, the terminating employer must also pay for the cost of the actuarial study used to determine that liability.

#### Refunds:

- Terminating members eligible to retire may, in lieu of receiving a monthly retirement benefit, refund their accumulated contributions in a lump sum.
- Terminating members with accumulated contributions between \$200 and \$1,000 who wish to rollover their refund must do so within 90 days of termination of service.
- Trusts, estates, and charitable organizations listed as beneficiaries are entitled to receive only a lump-sum payment.

#### Family Law Orders:

If a Family Law Order (FLO) is silent regarding the apportionment of post-retirement benefit adjustments such as the Guaranteed Annual Benefit Adjustment (GABA), the FLO is presumed to require apportionment of the post-retirement benefit adjustment in the same percentage as the monthly retirement benefit is apportioned.

Disabled PERS Defined Contribution (DC) Members:

PERS members hired after July 1, 2011 have a normal retirement age of 65. PERS DC members hired after July 1, 2011 who became disabled were previously only eligible for a disability benefit until age 65. Effective July 1, 2017, these individuals will be eligible for a disability benefit until they reach 70, thus ensuring the same 5-year time period available to PERS DC disabled members hired prior to July 1, 2011 who have a normal retirement age of 60 and are eligible for a disability benefit until age 65.

PERS Statutory Appropriation - House Bill 648, effective July I, 2017:

- Revenue from coal severance taxes and interest income from the coal severance tax permanent fund previously statutorily-appropriated to the PERS defined benefit trust fund will be replaced with the following statutorily appropriations:
  - 1. FY2018 \$31.386 million
  - 2. FY2019 \$31.958 million
  - 3. Beginning July 1, 2019 through at least June 30, 2025, 101% of the contribution from the previous year from the general fund to the PERS defined benefit trust fund, as follows:
    - a. FY2020 \$32.277 million
    - b. FY2021 \$32.600 million

    - c. FY2022 \$32.926 milliond. FY2023 \$33.255 million
    - e. FY2024 \$33.588 million
    - f. FY2025 \$33.924 million

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION-PENSION PLAN INFORMATION For the Year Ended June 30, 2018

#### Changes in actuarial assumptions and other inputs:

#### Method and assumptions used in calculations of actuarially determined contributions:

	TRS	PERS
Acturial cost method	Entry age	Entry age
Amortization method	Level percentage of pay, open	Level percentage of pay, open
Remaining amortization period	22 years	26 years
Asset valuation method	4 year smoothed market	4 year smoothed market
Inflation	3.25%	2.75%
Salary increases	4 to 8.51% including inflation for non-univesity members and 5% for university members	3.50%
Investment rate of return	7.75%, net of pension plan investment expense and including inflation	7.65%, net of pension plan investment expense and including inflation

OTHER SUPPLEMENTARY INFORMATION

### **General Fund**

The General fund is the general operating fund of the district. All general tax revenues and other receipts that are not allocated by law to another fund are accounted for in this fund. General operating expenditures, instructional expenditures and capital outlay are paid from the General fund. Because Billings Public Schools is comprised of two legal entities (Elementary and High School), the General fund (in addition to almost every other budgeted fund) has an elementary and high school portion. As one of three *major* funds, combining general subfund schedules have been presented to show the reader activity in the separate entities that comprise the General fund, in total.

### **Nonmajor Special Revenue Funds**

#### **Budgeted:**

Transportation Fund – (Elementary and High School) To account for revenue and expenditures for the District's pupil transportation programs.

Tuition Fund – (Elementary and High School) To account for tuition payments for pupils who are residents of the District but attend school outside the District.

Retirement Fund – (Elementary and High School) To account for the employer's contribution to the Teachers' Retirement System, the Public Employees' Retirement System, Unemployment Compensation, and the employer's share of Social Security.

Adult Education Fund – (Elementary and High School) To account for revenue and expenditures involved with the adult education program.

Technology Fund – (Elementary and High School) To account for the purchase and maintenance of a portion of the District's technological assets.

Flexibility Fund – (Elementary and High School) To account for revenues and expenditures for authorized purposes established by the Montana Legislature.

#### Non-Budgeted:

School Food Fund - (High School) To account for the District's food service program.

Miscellaneous Programs Fund – (High School) To account for Federal, State and Local grants and indirect cost monies received by the District.

Traffic Education Fund – (High School) To account for expenditures related to Drivers Education and the related tuition charged.

Lease Rental Fund - (High School) To account for the revenues and expenditures related to the lease or rental of school property.

Miscellaneous Trust Fund - (Elementary and High School) To account for the revenues and expenditures related to miscellaneous activities.

### **Proprietary Funds**

### **Internal Service Funds:**

Internal service funds are used to account for services provided by other departments or agencies of the government, or to other governments on a cost reimbursement basis.

Warehouse Fund - This fund is used to account for supplies, equipment and printing provided to other departments of the Billings Public Schools.

Self-Insurance Health Fund - This fund is used to account for the insurance premiums collected and claims paid out for employees, retirees and ex-employees on the COBRA plan.

Self-Insurance Property Fund - This fund is used to account for revenues collected and deductibles paid out for property and liability claims.

## **SECTION III – STATISTICAL SECTION**

This part of Billings Public Schools comprehensive annual financial report presents detailed information as a means for understanding what information in the financial statements, note disclosures, and required supplementary information says about the district's overall financial health.

Contents	Page
Financial Trends	106-109
These schedules contain trend information to help the reader understand how the district's financial performance and well-being have changed over time.	
Revenue Capacity	110-117
These schedules contain information to help the reader assess the district's most significant local revenue source, the property tax.	
Debt Capacity	118-122
These schedules present information to help the reader assess the affordability of the district's current levels of outstanding debt and the district's ability to issue additional debt in the future.	
Demographic and Economic Information	123-124
These schedules offer demographic and economic indicators to help the reader understand the environment within which the district's financial activities take place.	
Operating Information	125-131

The schedules contain service and infrastructure data to help the reader understand how the information in the district's financial report relates to the services the district provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Source and other information:

Does not include special assessment with government commitment or tax increment debt Finance Department, Yellowstone County, Montana.

City of Billings, Montana

The percentage of overlapping debt applicable to the District is estimated using taxable property values. Applicable percentages were estimated by determining the portion of the other government's taxable value that is within the district's boundaries and dividing it by the other government's total taxable value.

# Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Trustees of Billings Public Schools Billings, Montana

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Billings Public Schools as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Billings Public Schools' basic financial statements, and have issued our report thereon dated December 13, 2018.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Billings Public Schools' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Billings Public Schools' internal control. Accordingly, we do not express an opinion on the effectiveness of Billings Public Schools' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Billings Public Schools' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Montana Legal Compliance**

The Compliance Supplement for Audits of Montana Local Government Entities, contains nine categories of compliance to be tested. Our audit considered all of the nine categories.

In connection with our audit, nothing came to our attention that caused us to believe that Billings Public Schools failed to comply with the provisions of the *Compliance Supplement for Audits of Montana Local Government Entities*, except as described in the accompanying schedule of findings and questioned costs as item 2018-A. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding Billings Public Schools' noncompliance with the above referenced provisions.

#### Billings Public Schools' Response to Finding

Ede Sailly LLP

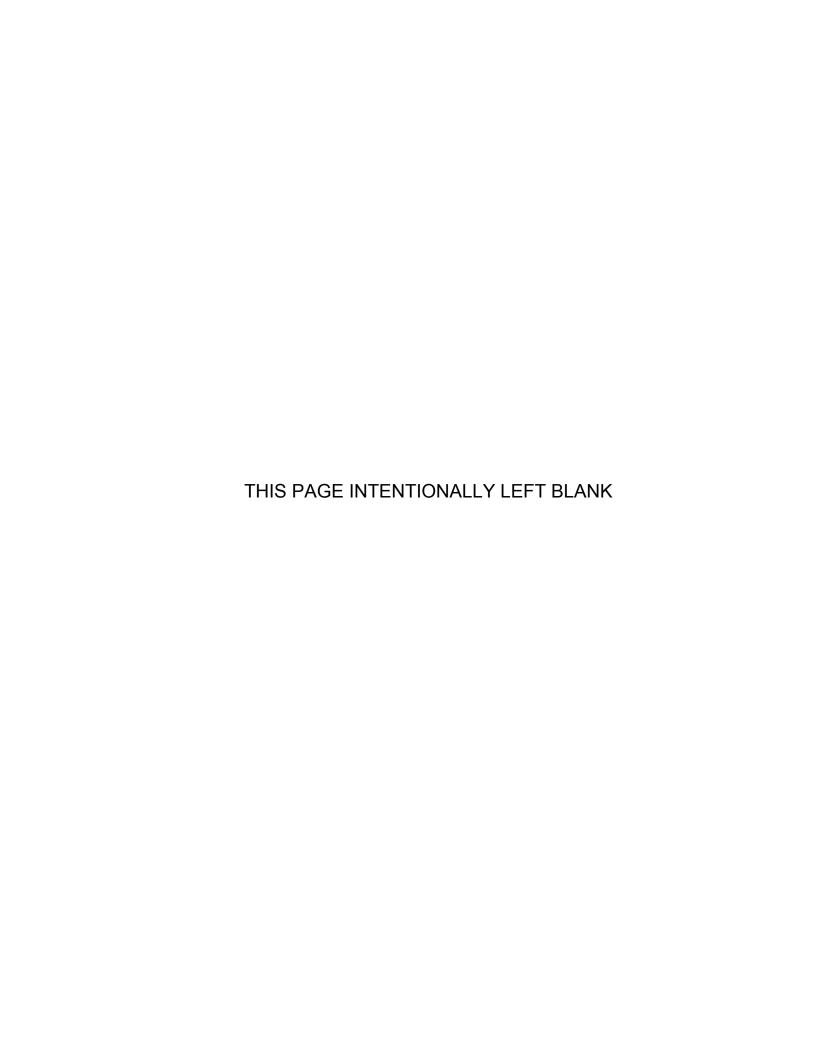

Billings Public Schools' response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Billings Public Schools' response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Billings, Montana December 13, 2018

133

## Independent Auditor's Report on Compliance for Each Major Federal Program; Report on Internal Control over Compliance Required by the Uniform Guidance

To the Board of Trustees of Billings Public Schools Billings, Montana

#### Report on Compliance for Each Major Federal Program

We have audited Billings Public Schools' compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Billings Public Schools' major federal programs for the year ended June 30, 2018. Billings Public Schools' major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

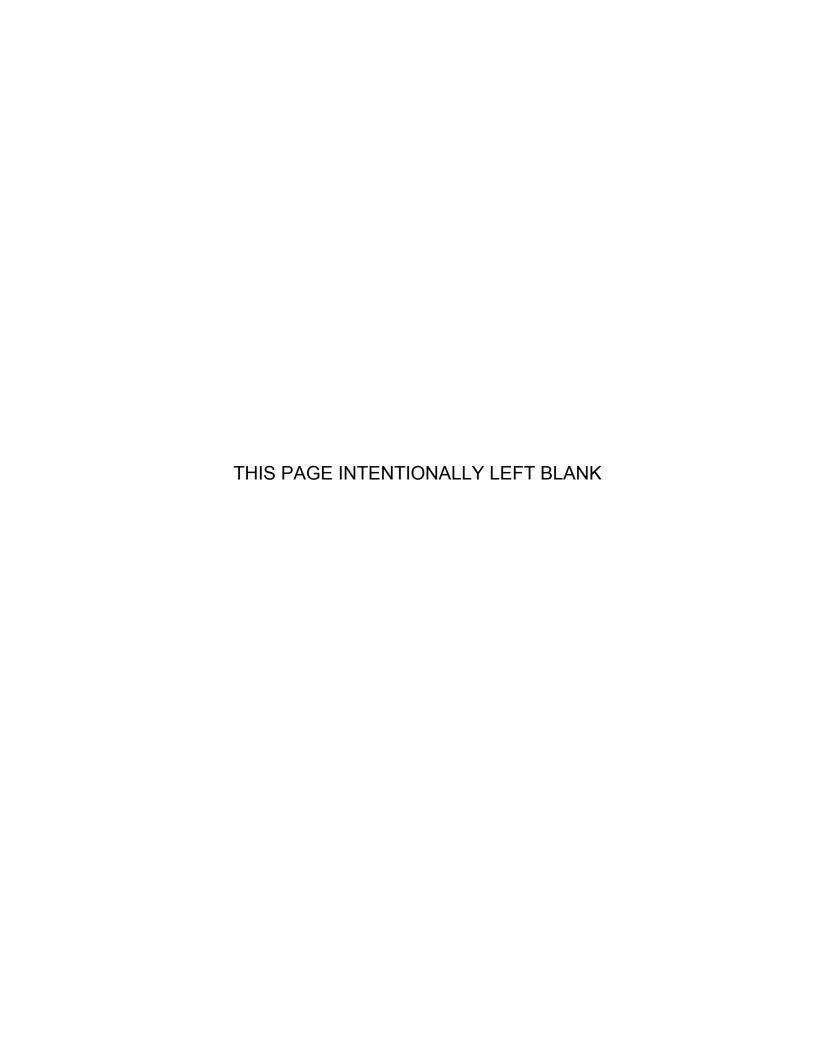

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on the compliance for each of Billings Public Schools' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Billings Public Schools' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Billings Public Schools' compliance.

#### **Opinion on Each Major Federal Program**

In our opinion, Billings Public Schools complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

#### **Report on Internal Control over Compliance**

Management of Billings Public Schools is responsible for establishing and maintaining effective internal control over compliance with the compliance requirements referred to above. In planning and performing our audit of compliance, we considered Billings Public Schools' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Billings Public Schools' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

#### NOTE A - BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Expenditures of Federal Awards (the schedule) includes the federal award activity of Billings Public Schools under programs of the federal government for the year ended June 30, 2018. The Information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of the Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the government, it is not intended to and does not present the financial position or changes in net position of the government.

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Billings Public Schools received federal awards both directly from federal agencies and indirectly through pass-through entities.

Billings Public Schools has not elected to use the 10% de minimis cost rate.

#### NOTE B - SCHOOLWIDE TITLE I PROGRAM

Billings Public Schools operates a schoolwide Title I program. Since schoolwide programs are not a separate federal program, amounts used in the schoolwide programs are included in the total expenditures of the program contributing the funds in the accompanying schedule of expenditures of federal awards. The programs included in Billings Public Schools schoolwide Title I program include Title I, Title IV Competitive, and Title IX.

#### NOTE C - FOOD DISTRIBUTION

Non-monetary assistance is reported in the schedule of expenditures of federal awards at the fair market value of commodities received and disbursed.

#### NOTE D - RELATIONSHIP TO THE BASIC FINANCIAL STATEMENTS

Federal award revenues are included in the basic financial statements as part of federal revenues in the Statement of Revenues, Expenditures and Changes in Fund Balances-Governmental Funds.

The following is a reconciliation of cash receipts on the schedule of expenditures of federal awards to federal revenues reported in the Statement of Revenues, Expenditures and Changes in Fund Balances-Governmental Funds.

Cash receipts Revenue accrual adjustments Federal revenues not subject to Uniform Guidance	\$ 14,665,161 (372,780) 1,019,730
Federal revenues	\$ 15,312,111

and type B programs \$750,000

Auditee qualified as low-risk auditee No

#### **Section II – Financial Statement Findings**

None reported.

#### Section III - Federal Award Findings and Questioned Costs

None reported.

#### **Section IV – State of Montana Compliance Findings**

#### **2018-A** Enrollment Count

Criteria: Montana Code Annotated (MCA) Section 20-9-311(6) states "When a pupil has been absent, with or without excuse, for more than 10 consecutive school days, the pupil may not be included in the enrollment count used in the calculation of the ANB unless the pupil resumes attendance prior to the day of the enrollment count". MCA Section 20-9-311 (11) (a) – (g) describes situations where a district may include an enrolled pupil for Annual Number Belonging (ANB) purposes who is otherwise eligible.

Condition: During our audit, it was noted that three students on the Fall Enrollment count and one student on the Spring enrollment count were incorrectly counted in the School District's ANB count. None of these students met the definition of an eligible pupil and were incorrectly included in the School District's ANB count.

Cause: The School District's control system was unable to identify within a short period of time the student that was incorrectly included.

*Effect:* The School District inadvertently included four students that were not eligible to be counted.

*Recommendation:* A thorough review and reconciliation of enrollment accounts should take place. This will minimize the risk of errors in enrollment counts.

Views of Responsible Officials: Management agrees with the finding.

Management's Response to Auditor's Findings: Summary Schedule of Prior Audit Findings and Corrective Action Plan June 30, 2018

Prepared by Management of Billing Public Schools

#### Billings Public Schools - Summary Schedule of Prior Audit Findings

#### Military Leave

Finding 2017-A

Finding Summary: During our audit, we noted that one out of a total of five employees with military

leave had been given a leave of absence with pay for a period of 15.5 days,

which exceeded the 15 working days limit set forth by Montana law.

Responsible Individuals: Mike Arnold, CFO

Corrective Action Plan: The payroll department will audit military leave as part of their month end

process.

Status: Fully Implemented

New Hire Reporting

Finding 2017-B

Finding Summary: During our audit, we noted that a total of fifteen employees were not reported

within the 20 day window from the employee's date of hire or rehire, as required

by the MCA.

Responsible Individuals: Mike Arnold, CFO

Corrective Action Plan: The district will properly train the staff responsible for processing new hire

paperwork.

Status: Fully Implemented

**Enrollment Count** 

Finding 2017-C

Finding Summary: During our audit, it was noted during the Fall Enrollment count that two students

were present and enrolled on the count date. Both of these students met the definition of an eligible pupil and were incorrectly excluded in the School District's

ANB count.

Responsible Individuals: Mike Arnold, CFO

Corrective Action Plan: Systems will be put in place that will present changes in status in the enrollment

data base. This will enable responsible staff to ensure all eligible students are

properly reported in the enrollment count.

Status: Additional training is ongoing

#### Billings Public Schools - Corrective Action Plan

#### **Enrollment Count**

Finding 2018-A

Finding Summary: During our audit, it was noted that three students on the Fall Enrollment count

and one student on the Spring enrollment count were incorrectly counted in the School District's ANB count. None of these students met the definition of an eligible pupil and were incorrectly included in the School District's ANB count.

Responsible Individuals: Craig Van Nice, CFO

Corrective Action Plan: Additional training with responsible staff is being implemented to ensure all

requirements are in place to determine only eligible students are included in the enrollment count. An additional level of review has also been put in place to

assist in comprehensively determining the reporting is accurate.

Anticipated Completion Date: Ongoing
